Directors' Review

We are pleased to present the Directors' Review together with the Condensed Interim Financial Information (un-audited) of your Company for the quarter and nine months ended 30 September 2018.

Pakistan's economy is expected to slowdown in FY 2019 and GDP growth is projected to around 5% in FY19 vs 5.4% in FY18. CPI inflation is expected to rise due to increase in international oil prices, increase in gas tariffs and depreciation of the rupee. SBP has raised its policy rate by 100 bps to 8.5%.

Your Company's results witnessed a strong performance for the nine-month period ended 30 September 2018 by exhibiting improvements in all key performance indicators. Profit after tax at Rs. 297 million was higher by 50% compared with the same period last year. EPS is Rs. 11.85 vs last year's 7.91. The higher profit after tax was driven by double digit growth in turnover, margin expansion of 11% due to growth in topline and favourable sales mix and continued cost optimization which reduced distribution & marketing and administration expenses by 20% and 16% respectively.

Your Company shall continue to focus on strong business growth while protecting the margins.
